

CONFINED SPACE ASSESSMENTS

Hygieneering, Inc.

Environmental, Health and
Safety Consulting Services

Helping our clients meet the requirements for practices and procedures to protect employees from the hazards of entry into permit required confined spaces.

Hygieneering's expert team of workplace health and safety professionals can effectively evaluate/update your current Permit Confined Space program or develop/establish a new OSHA compliant program to safely support your operations.

Hygieneering's team of trained and experienced professionals will:

- ✓ Develop/update your site's Written Permit Confined Space Management Program
- ✓ Perform a documented assessment of all confined spaces in your workplace to determine if it is a non-permit required or a permit required confined space
- ✓ Create a documented inventory of non-permit required and permit required confined spaces
- ✓ Demarcate non-permit required and permit required confined spaces with uniform language throughout the workplace
- ✓ Identify and evaluate rescue and emergency services
- ✓ Provide training to affected employees (e.g. entry training, and entry rescue/non-entry rescue training)
- ✓ Provide 1st Aid, CPR, and AED training to the site's rescue team

Since 1987, Hygieneering has been an expert in supporting workplace health and safety. To learn more about this service, contact us today!
