

ASBESTOS & LEAD SERVICES

Hygieneering, Inc.

Environmental, Health and
Safety Consulting Services

Providing our clients with comprehensive Asbestos & Lead Assessments that minimize risk and put clients in control.

Hygieneering, Inc.'s highly experienced Asbestos and Lead Consulting Division has the necessary experience, credentials and insurance to ensure that projects of any size are performed safely, legally and cost-effectively.

Asbestos & Lead Surveys

If renovation, demolition or maintenance work is driving asbestos or lead abatement activity, Hygieneering can design the project, solicit competitive bids from qualified contractors and manage the project to reduce liability and save client costs.

Hygieneering continues to develop customized programs for the identification and management of environmental issues. We standardize program implementation to ensure consistency for companies that have multiple locations.

Our licensed Asbestos and Lead Inspectors and Risk Assessors can perform required Hazardous & Regulated Materials Inspections (HMA's & RMA's) to properly support your demolition and renovation projects. These services will assist you in maintaining compliance with The NESHAP Regulations and the New Cook County Notification Procedures.

Hygieneering's Asbestos & Lead Consulting Services Include:

- ✓ Hazardous & Regulated Materials (HMA's & RMA's) to support Demolition and Renovation Projects
- ✓ Turnkey Environmental Remediation Services
- ✓ Building Inspections to identify and quantify materials
- ✓ Project Designs and Specifications for Abatement
- ✓ Project Management, Documentation and Environmental Testing Services
- ✓ Operations & Maintenance Programs
- ✓ Accredited Training Center and Services needed to comply with applicable EPA and OSHA regulations
- ✓ In-House, AIHA/PAT Laboratory for air sampling & air monitoring analysis.
